For an Associate in Applied Science (A.A.S.) Degree in Accounting

Accounting (A.A.S.)

- *The need for professionally trained men and women to fill accounting positions in business and industry is a vital concern of the Accounting Program. The Accounting Program has three aims:*
 - *To train students for entry-level career positions in the accounting profession.*
 - *To provide students with an educational foundation to pursue advanced accounting studies at any four-year college leading to a bachelor's degree.*
 - *To provide Spanish-dominant students the opportunity to learn accounting and to make a successful transition to an English-speaking work environment.*
- *The program is designed for professional training in two tracks: English dominant and Spanish dominant. A broad and comprehensive introduction to accounting is provided. Upon successful completion of these course requirements, the student is granted an Associate in Applied Science (A.A.S.) degree in Accounting.*
- *After graduation, a bachelor's degree may be pursued. With appropriate experience, additional credits, and the passing of a state examination, a student may qualify as Certified Public Accountant (CPA).*

The following represents the credit distribution and requirements for the program of study leading to the A.A.S. degree in Accounting.

Liberal Arts & Sciences	21.0 credits
Business and Accounting	39.0 credits
Total Credits for Degree	60.0 credits

Criteria for Progression into the Accounting Program
