

Free SAT Prep

Let's Get Ready expands access to college in America by mobilizing, equipping, and empowering a movement of college students helping high school students get to college. Through a network of local chapters, Let's Get Ready volunteers provide students with intensive SAT preparation, college advising, and powerful role models for college success.

PROGRAM

The nine-week LGR course is led by college student Coaches (tutors/mentors) who work in small groups of five students to one Coach. The course provides free SAT Prep, college application assistance, financial aid overview, and college tours.

After the core Access program, Let's Get Ready continues to provide college transition and persistence support.
