## SGA Members' Reflections

---

Name: Saint Mbakop A Boui

Position: SGA President

SGA committee you chaired:

I am the Chair of the Committee on Committees

SGA Committee Report:

my committee is in charge of making sure that all the committee are doing their. and to make sure that committee report their work to the rest of the group

College Committees assigned:

College Executive Committee, College Curriculum Committee, College Wide Senate, Hostos Association, Hostos Auxiliary Committee, Hostos Committee On Committees

College Committee Report:

in the College Curriculum Committee we discuss of new courses to be in the campus, courses revision, courses to be propose to partway. in general the C.C.C. review and vote on course to be presented in the senate for approval.

The College Wide Senate Executive Meeting meet generally the Wednesdays of the week before the college wild senate. the C.W.S.E. meet to discuss and plan the agenda of the college wild senate. they also speak about issue that have arise in the campus and decide if it have to be present on the senate floor or not.

As the president of The SGA I speak on the for 7,000 and plus students here at hostos at the college wild senate presenting what the mane concern are and what we thing we need form the college community. and also we present what as SGA Team we have been doing for the student. it is also in the senate that most of the academic decision are made. we vote of new courses, course revisions, courses introduction to partway and many more.

Hostos auxiliary in a committee that meet only ones of twice in the semester. the Auxiliary is in charge of allocating the money made by the college to different entity of the college.

the Hostos association in C. is the body that allocate the fund from the students activities funds to clubs and organization through out the campus. The association is mainly constituted of SGA member.

the committee on Committee is a committee that is in charge of overseeing rest of the committee through our the campus.

### Personal thoughts about these Committees:

the committees are very important it is the place where the SGA member get actually to speak on behalf of the student. It is capital that you all make the best of your effort to attend all the meeting of the committees you are each part of. they can sometime get confusing but be prepared before you go to the committee and ask as much question that you have to understand the issue that are been discuss. don't be scare of asking question even the silly one.

### What was your personal experience with the SGA?

As you can imagine been the president is not an easy task but I realize very early that the SGA is not a "one man show". I realize that I have a team that believed in me and had a lot of expectation for me, and even more important I had the responsibility to represent the 7000 plus student that we have at Hostos. So very early I know I couldn't failed at this task. I decided to do my very best to balance everything. This eventually led me on reducing my sleep time, and take in the power of planning and google calendar. Wish works somewhat well. My SGA journey was easy up mostly by my team wish for the most part always work together in an equalitarian Plainfield in wish. I try my best to create a place where the executives and the senators feel as important one and other, I also work on creating, committees that help each members of the SGA to have a specific leadership role. So some people utilize that role and became very involve and some didn't not but the purpose of creating the committees was attained because no one felt left out of the team. I also realize that as sga member, to make a difference we need the collaboration of the administration. The collaboration with the administration can be win only by proving them that you are worded to be listened to, that you have the students best interest in mind at all time, that you are determined to make them receive the best that can be offer and that you are a smart group. This pass by understanding the Sga constitution, the Hostos Chart of governance, the CUNY chart of governance, the CUNY accountability hand book. And I also with the work done in the creation of the Student Bronx Council bylaw read a lot of order campus governing document. I also realize that the better informed about the how thing supposed to work make it very easy to take the right decision when the time come. In a personal level I gain a lot of knowledge in the leadership and group work. I also took all the chance of public speaking that I could so I become more comfortable speaking in English.

My team and I did a great job on creating a good Image for the SGA throughout the campus. I am proud to have lead such a team. I am also so happy to have had two of the best leader here at Hostos community college as our advisor Jerry Rosa Student Activity and the director of the leadership academic Jason Libfeld. I am thankful for everything they did for us and for the students at hostos it is always great to have leader that teach you by example not by telling you what you have to do but showing the best ways to get to your the best decision. Jerry as we call him Mr. Google is the most resourceful person in the campus. He always offer many options for you to choses from when you present him with a problem. He is one of the few people that I know how still operate like that. He always give you choices and risk factor and let you call the short. I personally thing that it's the best skill for an advisor. So I will like to recommend you to use Jerry wisely. Jason is almost always update in to what is going on in the CUNY in general and can often get you the answer in a couple of minutes you just have to ask. This two Hostos personnel was the part of all the result and everything done during our time at your time you may or may not have the opportunity to meet them. But regardless always try to fine the right action for the students be for you make a decision.

To the next administration I would like to congratulate you for accepting this challenge. I can reassure that you made the right chose. Now is your time to shine, do your best. To the next presidents Mr. /Mrs. Congratulation and good luck for you and your teams. My immediate successor Willy Baez With congratulation, I have all faith on you and your team to the very best for the student of Hostos. Keep hostos SGA One of the best in CUNY as it has always been. To all the next presidents if you ever need my help in any shape or form please feel free to contact me by email at [saintsalvism@gmail.com](mailto:saintsalvism@gmail.com)

SGA committee you chaired:

Academic Affairs Committee

SGA Committee Report:

We addressed the issues of the library opening, the science laboratories and also organized academic related events. We organized the GPA watch to boost students on their academic achievement and give them hope that they could still do it and have the time to fix their GPA.

The STEM Olympiad was also organized for all students in STEM subjects to compete.

After our meeting with the Chief Librarian she accepted to help us open the cafeteria as study area for the mid-terms and finals but we didn't hear back from her.

After our meeting with the provost and Vice-President for Academic Affairs, it was reported that the science department have been given funds to upgrade science labs. moreover more equipment were bought for the science Labs and the chair of the department thanked the SGA in pushing the administration on upgrading their labs; thing they have being asking for a while now.

College Committees assigned:

The Curriculum Committee

College Committee Report:

Multiple courses addition were voted during those meetings before their presentation at the College Wide Senate

We discuss the advantages and disadvantages for students taking the courses and why should it be brought in or not.

Personal thoughts about these Committees:

It was great to be involved in all these committees

What was your personal experience with the SGA?

The semester was really tough because of all the responsibility I had. going classes to classes and meeting in between can leave you with no study time. I fell a little behind at the beginning of the semester and had to do a lot of time management. Hopefully i catch back but it was not easy. I passed all my classes but not with the grades I wanted for some of them.

For anybody taking this position, I will advise them to really be careful about how they manage their time, the homework and also the registration of classes. Too many heavy classes are not advised in this position and get ready to not have any other life :)

College Committee Report:

Just making sure things are going right

Personal thoughts about these Committees:

They are great

What was your personal experience with the SGA?

I believe it was tougher since I didn't start since the beginning and things were all over the place and then just trying to make sure members had things they needed and things were not missing other than that it was great

Name: Raquel Melendez  
Position: Executive Secretary

SGA committee you chaired:

N/A

SGA Committee Report:

Even though I was not assigned a committee, the SGA Diplomats stemmed from the idea to partner up with clubs and students to make a greater impact beyond what the SGA can do on its own. From activities, worships, events, advocacy and committees; the mission is to accomplish these as one voice with a great sense of community.

College Committees assigned:

Scholarship Committie

College Committee Report:

There was only one meeting in the semester and the committee spoke about scholarships, the changes that existed in this honors convocation in regards to money. Seems like last year, students who were nominated by their department also received a scholarship. Professor Figueroa explain that was no longer going to occur and was problematic. Instead, there was going to be a scholarship offered for students with a 3.7 GPA and above. She also mentioned the lack of awareness that exist in scholarships. Promotion is key.

Personal thoughts about these Committees:

It was resourceful.

What was your personal experience with the SGA?

The journey was not easy considering I had to learn how to balance my school work and my SGA responsibilities. I was enrolled in 5 classes (that's if lab counts) and eventually dropped two of them. I was stressed and learned the hard way that it's very important to know how to manage time and differentiate what is and isn't important. One thing I've come to learn is that when planning or getting a group of people to work with you, it is vital to include them in someway or

form. Make them understand how important they are and how their contribution is meaningful to you and the overall vision. There is a beautiful harmony that exist in including everyone from the team and there is nothing greater than that. I will also add that it helps to plan things a head of time and let others know on the process. How effective is a team who is willing work but doesn't know what to do or what's going on? (It's a little food for thought.)

Lastly, the SGA family has been a support system throughout my journey. While we are here to get a job done, it helps to build relationships. One team, one mind, one soul.

Ps. I also want to sneak in here that Jerry is the man. We have changed his name to Mr. Google because he is the guru to everything that you may need help with. Whether it's coming up with creative ideas, resources, connections, advice, this man will go out of his way to help you out. My advice, is to seek his advice. Two heads are better than one.

SGA Committee Report:

Working in the distrusting of the Metro card

College Committees assigned:

College wide senate, Research committee

College Committee Report:

I was working with faculty and the administration to look for more internship and research opportunities specially the STEM students. And spread the word among the student about the opportunity that available in the school.

Personal thoughts about these Committees:

None

What was your personal experience with the SGA?

I met one of the greatest people I ever met in my life. We bound together work together and laugh a lot together. I definitely develop my leadership skills as well. However, SGA is a lot of work that means don't delay the work of your classes get it done early. Otherwise, you will be stressed and overwhelmed. Good luck!

College Committees assigned:

College Wide Senate, USS 2nd alternate

College Committee Report:

-as a voting member support any new course

-bring any issue on campus, (lab equipments, class repairs, etc.).

Personal thoughts about these Committees:

It was a great experience I learn from everything in life, as a member of the SGA I encourage future student to take their position seriously and I mean it, do your best to represent those that are ahead of you (president, vice-president and so on) proud of you. Take pride on what you do in life believe me it will pay off. Do you job with integrity and respect. Don't forget that you are a student first, but with discipline and good communication you can do anything in life.

Remember who you are!

What was your personal experience with the SGA?

Very challenging, I learned a lot. I have a strong discipline but being a member of the SGA highly shaped my discipline, time management, not to procrastinate but to get things done ASAP, remember who I am, and those that I represent I take pride on that . I remember who I am and how I want to be remember. For the future members please take your position seriously, love what you do and have fun.

SGA Committee Report:

- Select students that will be recognized for their help during events.
- Consult with the team to make sure the students are a good selection and if they can recommend any other.
- Organize the recognition of the chosen diplomats and their gifts.

College Committees assigned:

I was part of the College Wide Senate during one semester.

College Committee Report:

Attend to the biweekly meetings and vote on the different issues discussed there based on what is better for all the students.

Personal thoughts about these Committees:

None

What was your personal experience with the SGA?

Amazing experience! It is a learning environment where you get to have fun at the same time. You can make friends for life while you learn and become more professional. I would do it again!

Name: Isela Herrera

Position: Senator

SGA committee you chaired:

Health and environment

SGA Committee Report:

Since I was nominee late in the semester, I have been looking for strategies to better the environment for the student body through asking people around the campus what are the needs and suggestions. I got to the conclusion that individual needs are different thus it is better to enclosed specific needs and set them by prioritize what most of the student body feels comfortable with. Overall people feel that there are some things that have to change, starting with the cafeteria's food. I already spoke to the person in charge but they told me that the are covering a variety of foods according to the school requirements. We need to keep looking for strategies to establish a better relationship with the cafeteria management in order to find better ways to excel the service and the options on the menu.

College Committees assigned:

Admission and retention committee & Library committee

College Committee Report:

About the library, a meeting was conducted between the president of the SGA and two commissioners, including myself, the director of the Library and two members of the library staff to discuss the possibility to enable an area inside the school so students could stay longer studying for finals. The meeting was conducted effectively and some arrangements were reached; however, promises were never in paper. Maybe it would be a better way to make the agreements to have effect.

For Admission and retention, there was an informal meeting between the outreach department to set some strategies for students not just to attend classes but also incentives to help them to graduate and succeed in the job field. There are a lot of things to do but planes are in process.

Personal thoughts about these Committees:

None

What was your personal experience with the SGA?

Definitely being part of the SGA have increased my experience in many ways. I learned a lot of the school management in terms of students needs and why these are not cover immediately. I develop some skills in dealing with large groups of people. It also allow me to understand the differences between the student body and also be prepared to help without trespass cultural boundaries. Personally, I enriched my knowledge about social skills and some how it helped me to be more organized in order to accomplished short term goals while preparing me for the future.

Academically it creates a network that allowed me to feel supported throughout the learning process.

Name: Willy Baez

Position: Senator

SGA committee you chaired:

Sports Committee

SGA Committee Report:

The Sports Committee works with the athletic department to make sure that the athletes are getting the proper equipment which is not a question with someone like Krishna ahead of the department. I was working on an ID Scanner to check in/out of the gymnasium to make sure that none of the students are skipping classes. I was not able to finish this task but actually pitched my idea to the IT department and they loved it.

College Committees assigned:

Scholarship Committee, STEM Olympiad Committee, Student Affairs Committee

College Committee Report:

The scholarship Committee successfully gives 20 scholarships to qualifying students of Hostos Community College.

Personal thoughts about these Committees:

The Student Affairs Committee works hand in hand with the College clubs.

What was your personal experience with the SGA?

It was an amazing journey, and the things that you learn while being in the SGA will be things that you will be using in the real world. Not only how to manage yourself in a workplace but also how to work with others, and most importantly pay attention to any student concerns and present it to the senate meeting.

Name: Alassane Thera

Position: Senator

SGA committee you chaired:
