

## Center for Bio-mediated and Bio-inspired Geotechnics (CBBG) 2023 Summer REU Program – Applications Due March 10, 2023

### Research Experience for Undergraduates (REU)

We are seeking innovative, sustainability-minded, engineering and science undergraduates to participate in a paid summer program. This program will immerse participants in technical research and expose them to the graduate school experience, specifically within the scope of the CBBG: to develop sustainable biologically-controlled and biologically-inspired solutions in hazard mitigation, environmental protection and restoration, infrastructure construction, and subsurface exploration and excavation.

#### Program Dates (8 weeks)

ASU/NMSU/Georgia Tech/UC Davis: May 30 to July 21, 2023

#### Program Benefits

\$5000 stipend

Travel/lodging available, if needed (preference will be given to local participants/commuters)

#### Program Eligibility

- U.S. citizen or permanent resident
- Must be planning to enroll as a sophomore, junior, or senior college-level student in Fall 2023
- Attend U.S. community college, college, or non-CBBG university
- Ability to work 40 hours per week for the entire program
- Students with disabilities, veterans, and those from traditionally underrepresented groups in STEM are encouraged to apply

#### Program Application

To apply, complete the common application by **March 10, 2023**, using the link:

<https://www.nsfetap.org/award/34/opportunity/700>.

The application will require: 1) general REU application (can be used for multiple REU sites); 2) CBBG specific REU questions; 3) unofficial transcript(s) from all undergraduate institutions attended; and 4) contact information for one reference.

More information can be found at: [cbbg.engineering.asu.edu/education/research-experience-for-undergraduates](http://cbbg.engineering.asu.edu/education/research-experience-for-undergraduates).
